NEW CLEANSERS-Available Oct. 1, 2007

AHA 10% CLEANSER

Glycolic Acid Cleanser leaves skin smooth & soft.

A softening and thorough facial wash containing 10% Glycolic Acid. Loosens and exfoliates the outer dead layers of skin leaving the skin rejuvenated. Helps reduce age spots, acne breakouts, excess oil, and fine lines with daily use.

Gentle yet thorough AHA Cleanser foams away dirt, oil, dead cells, and pore-clogging impurities. The exfoliant formula contains deeply penetrating glycolic acid derived from sugar cane, the most effective alpha hydroxy acid, to promote cell turnover and reveal healthier, smoother, brighter-looking skin. AHA Cleanser also contains seaweed extract, a potent antioxidant high in Vitamins A, C, and E that helps skin replenish itself, and Vitamin A-rich rose hip seed oil, which hydrates, helps to restore collagen and elastin, and reduces the effects of aging such as lines, wrinkles and uneven color. Also recommended for problem and oily skin, AHA Cleanser should be used morning and night as part of a skin care program that also includes toning, moisturizing, and sun protection, plus treatment products if necessary.

Directions: Apply cleanser to palm of the hand and cleanse skin. Rinse with tepid water.

Ingredients: Purified Water, Olive Oil Castile, Glycolic Acid, Vegetable Glycerin, Rose Hip Seed Oil, Seaweed Extracts, Oil of Kumquat.

SUNBURN ALERT: This product contains an Alpha Hydroxy Acid (AHA) that may increase your skin's sensitivity to the sun and particularly the possibility of sunburn. Use a sunscreen, wear protective clothing, and limit sun exposure while using this product and for a week afterwards.
